**Dear Sir or Madam,**

Through my vocational training and practical experience in an industrial and manufacturing environment as well as project-based assignments in control cabinet and systems engineering, I have gained extensive experience in the assembly, installation, commissioning, and maintenance of technical systems. I work with PLC control systems and frequency inverters and have experience with industrial communication systems such as Profibus and AS-i bus. I am also responsible for the integration and commissioning of sensor and actuator systems. Safety inspections in accordance with DGUV V3 as well as fault diagnosis and troubleshooting within ongoing maintenance operations are key parts of my daily work.

In addition, I am involved in IT and project-related tasks within industrial environments, continuously expanding my knowledge of system and IT infrastructure, including network systems, server environments, and operating systems. Part of this work is carried out within a project-based engagement with a Christian focus.

Working across different technical disciplines has helped me develop a flexible, reliable, and solution-oriented working style. Teamwork and a respectful, service-oriented approach toward colleagues and customers are particularly important to me.

I look forward to contributing my practical experience and motivation to your company and supporting your team.

Further information about my professional background can be found in my online profile at: <https://ln.run/blueprint>

I am available for a personal interview at your convenience.

Yours faithfully,

- Nu jazz music
- Tabletop RPGs

# Graduation Certificate

Vocational training in accordance with § 4 of the German Vocational Training Act (BBiG)

## Electronics Technician for Automation Technology

**Mister**

Oliver Sackmann

**Qualification period:**

27.01.2005 to 16.01.2007

**Date of birth:**

10.07.1979 in Berlin

**Operational phase:**

29.05.2006 to 15.09.2006

Qualification units	Rating
<p><b>Analysis of Electrotechnical Systems and Functional Testing</b> Fundamental knowledge of electrical engineering, including the design, analysis, and testing of basic circuits, as well as the metrological determination of electrical parameters</p>	<b>Satisfactory</b>
<p><b>Planning and Execution of Electrical Installations and Energy Supply Systems</b> Protective measures, installation techniques, power supply systems, device testing in accordance with DIN VDE standards</p>	<b>Satisfactory</b>
<p><b>Analysis and Adaptation of Control Systems</b> Control systems based on relays and logic modules</p>	<b>Sufficient</b>
<p><b>Provision of Information Technology Systems</b> Installation and configuration of hardware and software components; network systems; data backup; documentation and presentation</p>	<b>Good</b>
<p><b>Design of Control Systems and Verification of Operational Safety</b> Switchgear technology in control engineering; contactor control systems; safety testing in accordance with VDE 0113; sensors and pneumatics</p>	<b>Satisfactory</b>
<p><b>Planning, Implementation, Commissioning, and Maintenance of Automation Systems</b> Design, construction, commissioning, and handover of automated transfer systems; control engineering</p>	<b>Good</b>
<p><b>Programming of Controllers for Automated Systems</b> Program development using FBD, LD, and IL; sequence programming; fieldbus systems in automation technology (AS-I, Profibus, Interbus)</p>	<b>Good</b>
<p><b>Understanding of Business, Labor, and Social Law Contexts</b></p>	<b>Good</b>
<p><b>English Language Competence</b> Reading and understanding user manuals and data sheets; descriptions; explanation of processes; conducting professional discussions</p>	<b>Excellent</b>

### Work Reference / Employment Certificate

Mr. Oliver Sackmann, born on 10 July 1979 in Berlin, was employed in our company from 29 January 2007 to 31 December 2007 as an Electronics Technician, Warehouse and Production Assistant.

As a personnel service company licensed by the German Federal Employment Agency, we temporarily assign the work of our employees to other companies to cover short-term staffing needs.

During the period mentioned above, Mr. Sackmann was deployed in the assembly and production environment as well as in electronics at various client companies. He was responsible for the following tasks:

- Operation of production machines and equipment
- Assistance in the carpentry workshop
- Wiring of control cabinets and PLC systems

Upon inquiry with our clients, we are pleased to confirm that Mr. Sackmann carried out all tasks assigned to him with commitment, diligence, efficiency, and to their full satisfaction.

Due to his friendly and cooperative attitude, Mr. Sackmann was highly regarded and well-liked by clients, supervisors, and colleagues alike. He is popular.

Vocational school

## Graduation Certificate

Mr. Aragorn Oliver Sackmann,  
born on 10. Jul. 79 in Berlin-Kreuzberg,  
attended the vocational school as an apprentice in the recognized training occupation of  
Painter and Varnisher  
and successfully completed Class MAL03 during the 1999/2000 school year..

### Assessment of Performance

German / Communication	Satisfactory
Elective subject in vocational theory	Not Assessed
Politics	Good
Sports	Not Assessed
Religion	Not Assessed
Vocational Theory	Satisfactory

Vocational theory comprised the following learning areas:

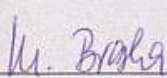

- Technology	Satisfactory
- Mathematics	Sufficient
- Design	Good

The overall grade in vocational theory results from the differing time-based weighting of the individual learning areas.

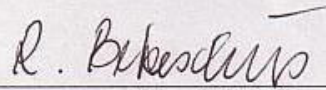

Mr Sackmann has obtained the Vocational School Leaving Certificate.  
He has also obtained the Secondary School Certificate I (Realschule qualification).

Remarks: none

## Service Certificate

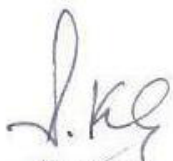

Mr Aragorn-Oliver Sackmann, born on 10 July 1979 in Berlin, completed his basic military service in the German Armed Forces (Bundeswehr) from 1 November 2000 to 31 August 2001.

After successfully completing the two-month basic military training from November to December 2000 at an Air Force training regiment, he was subsequently deployed after a further two-month on-the-job training period (AAP) as an air defense missile soldier (PATRIOT) with a PATRIOT air defense missile battery of the German Air Force.

As a PATRIOT air defense missile soldier, he was qualified to operate and monitor launch sites of the PATRIOT weapons system as well as to handle specialized surveillance equipment. His duties and responsibilities included geographical positioning of launch units, operation of gyroscopic systems, preparation of launch equipment for deployment, operation of communication systems, technical inspection and maintenance, execution of prescribed maintenance tasks, basic functional checks, and the elimination of minor technical malfunctions.

We came to know Mr Sackmann as a versatile, highly motivated, conscientious, and ambitious soldier. He carried out his duties purposefully and prudently, always to the full satisfaction of his superiors. His work was consistently performed with great care and precision.

Mr Sackmann completed his military service with the German Armed Forces upon expiry of 31 August 2001. We wish him all the best for his future professional and personal life.
